COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Dear Sir:

The Examiner's Statement of Reasons for Allowance states that independent Claims 1, 18, and 36 each recite determining that an error occurred while attempting to field program the memory array. However, only independent Claim 18 contains this element. Dependent Claims 8 and 40, which depend from independent Claims 1 and 36, respectively, recite "while attempting to field program" acts — making clear, by way of claim differentiation, that these acts are not

part of independent Claims 1 and 36. Independent Claims 1 and 36 are patentable, however, for at least the reasons set forth by Applicants in their prior response.

Also, while the Examiner's Statement of Reasons for Allowance states that the independent claims recite field programming a flag in the bad memory cell, the claims do not recite this. Further, not all of the claims relate a three-dimensional memory array, contrary to the assertion made in the Examiner's Statement of Reasons for Allowance.

In summary, the claimed invention is defined by the words in the claims themselves and not by inaccurate statements in the Examiner's Statement of Reasons for Allowance.

Dated: April 3, 2007

Respectfully submitted

Joseph F Hetz Reg. No. 41,070
